

THE WATCHTOWER

The Watchtower is a remote, wireless, solar-powered, audio-visual surveillance system. Onsite Guardian's systems are completely self sufficient (*no AC power is required). Our Watchtower series of portable units are excellent for:

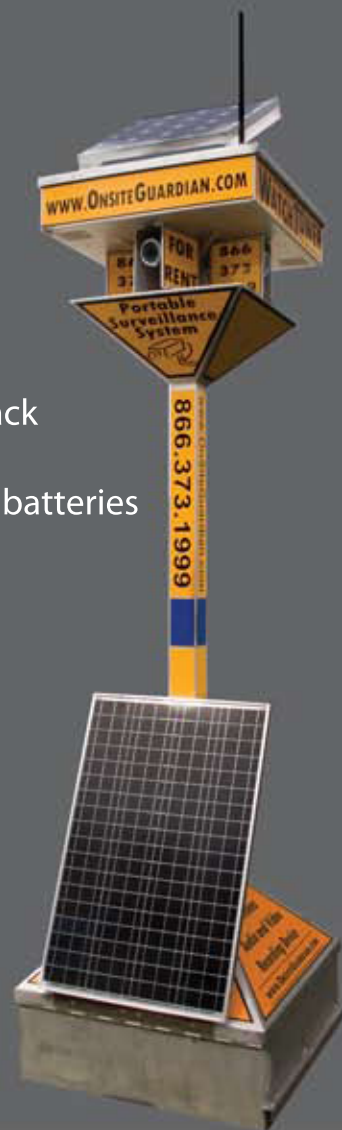

- Campuses (schools, hospitals, etc)
- Construction/Job sites
- Homeland Security
- Law Enforcement
- Parks and Playgrounds
- Outdoor/Indoor events
- Transportation hubs and infrastructure
- Utilities

Watchtower Features Include:

- Bosch VideoJet Encoder/DVR
- LAN, WiFi, or Cellular Connectivity
- Wirelessly accessible security system
- Remote viewing, management and playback
- Multiple unit deployment
- High performance AGM maintenance free batteries
- Four fixed-zoom infrared cameras
- Visible strobe light
- 360° Viewing
- Solar/battery powered
- Tamper proof installation
- ZERO critical wiring exposed

Design Options:

- Pan, Tilt, Zoom (PTZ) LoLux camera
- AC power compatibility
